

Firebird Costume Design

Imagine you are a costume designer for a new ballet production of *The Firebird*.

Design a costume, head dress, mask or make-up for a dancer performing as the Firebird. Listen to the music again, think about how the dancer might move to the music and how the costume will move too.

Draw your design on a sheet of A4 paper, colour and label it with the materials that would be needed to make it, e.g. silk, lycra, voile, feathers, face-paint, etc.

Extension: Have a go at making the head dress or mask using any materials you have at home, e.g. paper, card, old packaging, scrap fabric, etc.
