

Rewrite the tale for these people. Replace Humpty with George, Jake or Noreen.

Elderly taxi driver, George, who had a bad car accident

He is now too scared to drive.

He loved his job as he'd been a driver for 30 years, since he was 20. He had regular customers

- Ethel the elderly lady, who couldn't get out much, to see her sister.
- Arthur who he took to the shops every week.
- Flo, the nurse, he took to work each day.
- The twins, who were physically disabled, who he took to their school each morning.

People relied upon him.

Young farmer, Jake, who was stampeded by a herd of cows.

He was scared to go back to work on the farm with the herd of 1000 cows.

He'd been taken on by the main dairy herd farmer (Charles) in the area as a young apprentice and was thought of very highly. He was efficient and hard working. Charles didn't have any other farm hands and times were tough.

Charles was a man down on the farm - he needed Jake's help.

Care home worker, Noreen who was 56, had a bad fall at home.

She lost her confidence for getting out of the house and walking about.

She cares for over 40 elderly people in the local care home.

Noreen is responsible for the entertainment in the home where she organises quizzes, cinema nights and bingo evenings for the residents.

Everyone was missing her.

Challenge

Can you think of another realistic *scenario*?
